Our Speakers

Kelly Morrissey Stump, LEI, CPE owner of Kelly Inc. – Electrolysis in Oak Park, Illinois. Kelly is also the owner and lead instructor for the new electrolysis school in Illinois, The Illinois Dedicated Electrology Academy.

“The Advanced Consultation 2020” is an interactive seminar that will allow attendees to interact while doing a variety of exercises geared towards dissecting what is an “Advanced Consultation”.

“Preparation for Lower Surgery” will cover the many factors to consider in preparing the client who will need electrolysis prior to genital reconstruction surgery. Learning exactly where the surgeon requires the hair to be removed, important of positioning, skin pre and post prep, modality and probe considerations.

“Needles and Modalities, an Overview” will cover how each modality is delivered based on a probe’s composition and how the tissue reacts.

Rachel Stanik, BS BSN MS received her bachelor’s in Public Health, her BSN and MS from the University of Maryland. Her MS is in Clinical Nurse Leadership.

During the “Infection Prevention Starts With You” presentation we will learn standard infection prevention measures, identify at-risk skin conditions and determine if it is appropriate for treatment and be able to assess and address procedural pain in order to provide an optimal client experience.
